How to configure WordPress iSMS pulgin

Account Set up

1. Go to iSMS. Fill in your username, admin phone and password. Next, "Save Changes" to save your settings

The screenshot shows the WordPress dashboard with the iSMS plugin settings page. The left sidebar contains a menu with items like Dashboard, All in One SEO, Posts, Services, iSMS (highlighted), iSMS, Sent Messages, Features, Team, Media, Pages, Comments, Slides, Portfolio, TablePress, WooCommerce, and Products. The main content area is titled 'iSMS Account Settings' and displays the following information:

- Your credit balance: 4357.0
- valid until 22 Oct 2020
- Enter your iSMS credentials

The form contains the following fields:

- Sender ID:
- Username:
- Admin Phone:
- Password:

A 'Save Changes' button is located at the bottom left of the form area.
